**Stage Dimensions:** viewable area on stage is roughly a 36' x 16'

**Sound & Lighting:** The sound and lighting booth is upstairs. There is no elevator to it, so please plan accordingly! Please remember to bring at least two sources of your sound, if you have any. (I recommend a laptop and an iPad or iPhone.)  
There is a spotlight, BUT I (Nancy) must have prior notification that you plan to use it!

**Dressing rooms:** Dressing Rooms will be the restrooms in the front of the building as you come in. There is a Green waiting room for the "on deck" school.

**Loading/Unloading:** You can unload in the front circle or back loading dock. **DO NOT park in the back loading dock area as those spaces are for the administration of the school, and we want to be invited back!**

**Backstage:** There is about 2 feet behind the very back curtain. You may put set there or use it for a character to move around. Also, stage right is a piano that will not be moved. You may set light props on it, but please be careful around it.

**Parking:** Parking is across the street in the Pine Lot P-13 or down the hill in P3. We will have directional signs out for you.

**Food:** You will be on your own for lunch on Monday. The school cafeteria is open down the hill from our building and all are welcome, or there are a few fast food restaurants, etc. to choose from fairly close by.
